EDUCATION

G L Bajaj Institute Of Management

Bachelor Of Computer Applications

Greater Noida

2023 - 2026

EXPERIENCE

Humming Bytes , Frontend Intern -Remote

January 2025-March 2025

- Collaborated with the team to refine and enhance UI components , and also improved the organization and structure of styling files, significantly boosting readability and maintainability.
- Teamed up with colleagues to develop APM versions of key webpages, optimizing their performance and accessibility.

PROJECTS

QuickAI [Link](#) – PERN Stack, NeonDB, Clerk Auth

- Built a multi-featured AI tool including background & object removal, resume review, blog/article writing, and image generation.
- Integrated serverless PostgreSQL (Neon) and modern auth flows (Clerk) for seamless UX.
- Focused on error handling, responsive UI (React + Tailwind), and modular backend APIs.

BaskeTo - MERN , Stripe , TailwindCSS

- Developed a MERN-based grocery delivery app with secure JWT authentication and responsive UI using React and Tailwind CSS.
- Built dynamic cart, real-time order tracking, and integrated secure online payments via Stripe.
- Created an admin dashboard for managing products, users, and orders efficiently.

OTHER TECH EXPERIENCE

- I organized GLB-Hackathon-04, a 24-hour, all-India hackathon, overseeing 1,500+ registrations and managing the event's website as part of the organizing team.
- leading a Web3 community [Decentralized Guild](#) in the Delhi region, organizing Web3 meetups and overseeing partnerships to foster collaboration and growth.
- Content Creator, CoinDCX (Ambassador Program) Created engaging content including memes, educational threads, and informative blogs to promote Web3 awareness and drive community engagement across social media platforms.
