EDUCATION

G L Bajaj Institute Of Management   Greater Noida
Bachelor Of Computer Applications   *2023 – 2026*

EXPERIENCE

Humming Bytes ,   Frontend Intern -Remote   January 2025-March 2025

- Collaborated with the team to refine and enhance UI components , and also improved the organization and structure of styling files, significantly boosting readability and maintainability.
- Teamed up with colleagues to develop APM versions of key webpages, optimizing their performance and accessibility.

PROJECTS

VicationZone 🔗 |React.js, Node.js, Exprerss.js, Mongodb

- This project is a full-stack web application built with Express.js, MongoDB, and React, featuring user authentication and session management using Passport.js.
- It provides functionality for managing listings and reviews with a dynamic frontend powered by React and backend APIs.
- The application uses EJS templating for server-side rendering and supports secure user interactions with session-based authentication and CORS configuration.

VideOn |React.js , Firebase

- Developed a React-based video streaming web application using Vite, featuring seamless navigation with React Router and dynamic media playback.
- Integrated Firebase for robust user authentication, real-time database management, and analytics to enhance user experience and security.
- Implemented responsive UI components and toast notifications for improved user interaction and feedback.

OTHER TECH EXPERIENCE

- I organized GLB-Hackathon-04, a 24-hour, all-India hackathon, overseeing 1,500+ registrations and managing the event's website as part of the organizing team.
- leading a Web3 community **Decentralized Guild** in the Delhi region, organizing Web3 meetups and overseeing partnerships to foster collaboration and growth.
- Content Creator, CoinDCX (Ambassador Program) Created engaging content including memes, educational threads, and informative blogs to promote Web3 awareness and drive community engagement across social media platforms.
